

About us

We want to make a difference to people's lives by involving them, listening and working together to change services

The Cwm Taf Morgannwg (CTM) Regional Partnership Board (RPB) is for people who live in Rhondda Cynon Taf, Merthyr Tydfil and Bridgend.

There are people who work in health, local authorities, third sector, housing and education who are on the RPB.

There are 7 RPB's in Wales. They were set up as part of the Social Service and Well being (Wales) Act to:

- Make sure health and social care services are better delivered
- Look after the well being of the people in Wales

This is done by making sure the funding is given to where it is needed most, and by finding out and planning what our communities will need in the future.

To do this we need to work closely with people who live and work in RCT, Merthyr Tydfil and Bridgend.

We need to work with local people to plan, design and deliver the right services.

The groups we are working with are:

- People with a learning disability and autism
- People with a physical disability
- Older people and people with dementia
- Unpaid carers

- Children and Young People
- People with Mental Health problems

We will make sure there will be:

Inclusivity which means that everyone is involved in our work and it is led by people in the community.

Equality - everyone should have the same access to services so we can all live a happy, healthy life.

Integrity which means we will be open and honest and tell everyone what we do.

Collaboration - meaning that we will work together with people so that the services are the best they can be.

We will do things differently to work better with and to support local communities.
