The Cwm Taf Morgannwg Regional Partnership Board (RPB) is here to look after the health and well being of people who live in RCT, Bridgend and Merthyr Tydfil. To make social care better.

On this website you can find information and what good work that is taking place.

It will show you how to join in with our work.

By working together we can make our communities a great place.

Transforming (Changing) Health and Social Care Services

The Transformation Programme brings people who work in health and social care together. So they can make services better.

This means that people who live in the community get the best support.

With their needs at the centre of any care plans.

Funding

People need to get the right service, at the right time and in the right place.

We have 6 groups that we want to work with

1. People with a learning disability and autism
2. People with physical disabilities
3. Older people and people living with dementia

4. Unpaid Carers
5. Children and Young People
6. People with mental health problems

Funding from the Integrated Care Fund (ICF) which supports projects who support some of our groups is looked after by a team called The Regional Commissioning Unit.

The RIIC Hub

Research, Innovation and Improvement Co-ordination (RIIC) Hub want to make what we get from health and social care services better.

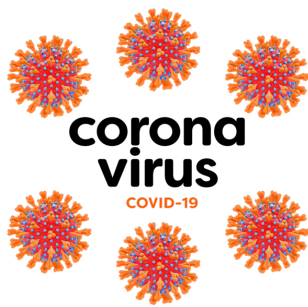

The hub finds and supports things that are going on in Cwm Taf Morgannwg.

Things like a well being garden in a hospital in Bridgend.

The hub wants organisations to work together.

Looking after Communities during COVID-19

COVID-19 has affected everyone and we think that now is an important time to work together.

Here are some of our projects that are supporting communities.
