

By Your Side

Read more about By your Side below

We know that people's voices should be at the centre of any decision that affect their lives.

Anyone who has health, social care or well being needs should feel listened to and supported.

Regional
Partnership
Board

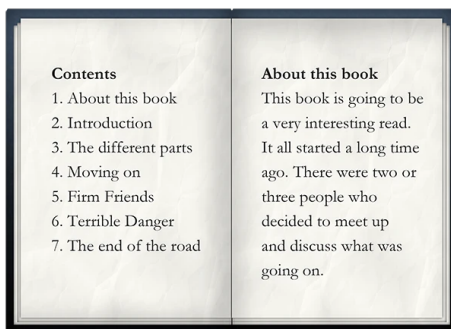

As a Regional Partnership Board we are looking at finding out what funding, support and other things are needed for health, social care and well being service over the next 5 years.

This is a good time for us to look at how things are working and try new ways to make things better.

We want organisations across Cwm Taf Morgannwg to support our By Your Side campaign.

This campaign will show people's stories from across Cwm Taf Morgannwg and hopefully encourage other people to share their stories.

Until the end of November we will be sharing people's stories and asking others to do the same

We know that by coming together we can give a voice to those who need to be heard.
